

Avnet supports our customers, from entrepreneurs to enterprises, through every phase of the technology product lifecycle.

Avnet is a FORTUNE 500 company with 15,700 global employees who serve more than 2 million customers in more than 125 countries.

Avnet supports customers of all types and sizes at each stage of the product lifecycle with a comprehensive portfolio of design and supply chain services. With deep expertise in design and engineering, broad line distribution, integration and services, Avnet is uniquely positioned to meet critical time-to-market needs for customers globally.

This substantial scale and scope, along with partnerships with the world's most innovative technology suppliers, makes Avnet one of the leading global distributors of electronic components and integrated solutions.

AVNET CAPABILITIES

Design: For global enterprises of all sizes, entrepreneurs and makers, Avnet helps ideas take shape, from product prototype to manufacturing model to mapping out regulatory compliance procedures.

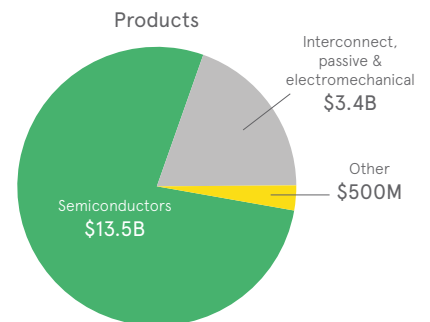

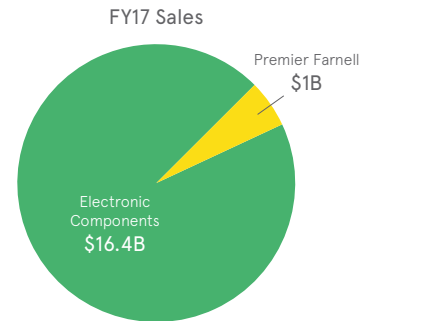

Supply: Avnet's longstanding relationships with technology suppliers, along with its systems and tools, reduces inventory challenges and investment risk for customers. It also ensures the right products are in the right places at the right time.

Make: Global integration centers can build and test subsystems either directly or for contract manufacturers so customers can focus on their core strengths and what they do best.

Deliver: Customers get the best technologies from the best suppliers delivered to them from anywhere to anywhere, including finding new routes to market.

Avnet annual revenue FY17 **\$17.4B**

FY17 (for the fiscal year ending July 1, 2017)
Excludes Technology Solutions and includes Premier Farnell which was acquired in October 2016
